WSKC 2018: Notice to Team Leaders

Competitors are politely reminded that WSKC is only possible because Berck-sur-Mer supports the event as a public spectacle. In order to maintain the interest and value of the event for sponsors and spectators alike, the Organisers would prefer teams to bring new ballet routines to WSKC XI (2018) however the decision of what ballet to perform rests with each team and all performances will be judged on their merits, without favour to either new, or previously used routines.

However, from WSKC XII (2020) onwards, the Organisers give notice that invitations to participate in the competition will be conditional on an undertaking by each team that they will present a new ballet, meaning one that is choreographed and performed to a distinctively different musical track to any that the team has employed in any previous edition of WSKC.

Teams may, at their own discretion present previously used ballet routines for demonstration purposes prior to the start of competition, or at any other time for demonstration purposes at the request of the Organisers
